Re: Written *Ex Parte* Presentation
WT Docket No. 07-293; IB Docket No. 95-91; IB Docket 11-109

Dear Ms. Dortch:

The Commission's 2010 decision adopting rules for terrestrial repeaters for use in connection with satellite radio requires licensees in that service "to provide potentially affected WCS licensees an inventory of their terrestrial repeater infrastructure, including the information set forth in Section 25.263 for each repeater currently deployed." Amendment of Part 27 of the Commission's Rules to Govern the Operation of Wireless Communications Services in the 2.3 GHz Band, WT Docket No. 07-293, *Report and Order*, Establishment of Rules and Policies for the Digital Audio Radio Satellite Service in the 2310-2360 MHz Frequency Band, IB Docket No. 95-91, *Second Report and Order*, 25 FCC Rcd 11710, para. 278 (2010).

Sirius XM Radio Inc. herein notifies the Commission that on March 1, 2012, it provided this inventory to each potentially affected WCS licensee. Please communicate with the undersigned if questions arise in connection with this matter.

Respectfully submitted,

James S. Blitz
Vice President, Regulatory Counsel
